

MENSTRUAL CARE PRODUCTS

DITCH DISPOSABLES

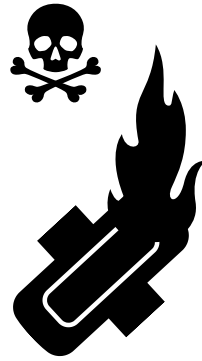

CHEMICALS

Harsh chemicals used in pads/tampons may lead to rashes, endocrine disruption, infertility, cervical cancer.

BLOCK DRAINS

Super-absorbent gels in the pad absorb drain water when flushed, swell and block drains.

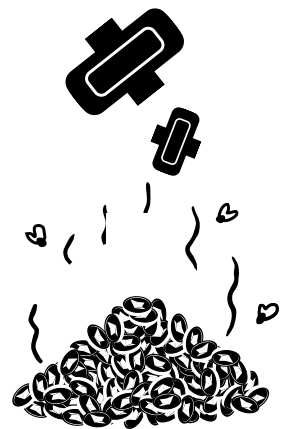

RELEASE DIOXINS

Open burning, micro-incineration of pads release toxic dioxins into the air which can lead to asthma, Alzheimer's, cancer.

TRASH FOREVER

Each pad takes 500 years to decompose - pollutes soil, ground water and air.

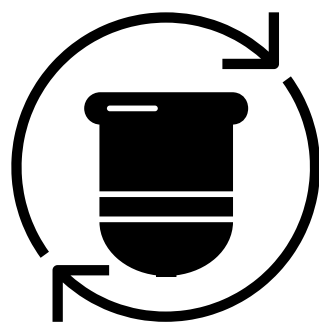

CHOOSE RE-USABLES

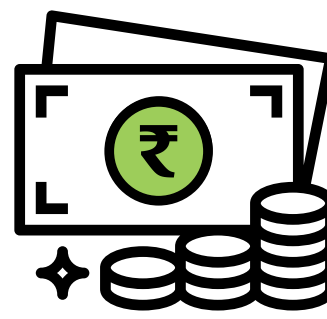

SAFE FOR THE BODY

Cloth pads are hypoallergenic. Menstrual cups are made from medical grade silicone that is safe and inert material.

RE-USABLE

Cloth pads last 3-4 years, menstrual cup lasts 10 years. No trash.

SAVES MONEY

No monthly expenditure on disposable pads.

COMFORTABLE

Cloth pads feel natural and soft. Menstrual cups are so comfortable, women can swim, travel, run during periods.
